

Call for nominations for the 2021 Henri Poincare Prize

The Henri Poincaré Prize, sponsored by the Daniel Iagolnitzer Foundation was created in 1997 to recognize outstanding contributions in mathematical physics, and contributions which lay the groundwork for novel developments in this broad field. The Prize is also created to recognize and support young people of exceptional promise who have already made outstanding contributions to the field of mathematical physics. The prize is awarded every three years at the International Congress of Mathematical Physics (ICMP), and in each case is awarded usually to three individuals.

The prize winners are chosen by the Executive Committee of the IAMP upon recommendations given by a special Prize Committee. The Executive Committee has made every effort to appoint to the prize committee prominent members of our community that are representative of the various fields it contains. However, to be able to do its job properly the Prize Committee needs input from the members of IAMP. For this purpose the Executive Committee calls IAMP members to provide nominations for the Henri Poincare Prize to be awarded at ICMP 2021 in Geneva.

A proper nomination should include the following:

- Description of the scientific work of the nominee emphasizing their key contributions
- A recent C.V. of the nominee
- A proposed citation should the nominee be selected for an award

Please keep the length of your nomination within a page and submit it to the President (president@iamp.org) or the Secretary (secretary@iamp.org). A list of previous winners can be found at: <http://www.iamp.org>. To ensure full consideration please submit your nominations by **September 30, 2020**.
